Coming Friday & Saturday, Dec. 28-29

"The Patent Leather Kid"

As Per Usual

We will be able to supply you with the choicest of everything in our line during the holiday season.

Champion Meat Market

Women's Institute Annual Meeting

The annual meeting of the Champion Women's Institute met at the home of Mrs. Frank Smith, Tuesday afternoon, Dec. 11th. The meeting opened sharply at 2:30 o'clock with about twenty ladies in attendance. Roll-call was responded to with "suggestions and ideas" for our next year's program, and many very novel and interesting responses were given. The reports of the sale of poppies, lunch served at Mr. Bozarth's sale, Mrs. Ulrich's tea and the rummage sale were given and added greatly to the treasury. A vote of thanks was tendered to the committee in charge, also a hearty vote of thanks was tendered to Mr. Bozarth for affording the W. I. the opportunity of serving lunch the day of his sale. Mrs. Wm. Ulrich received the prize given by Mrs. Mifflin for presenting the longest list of Canadian made goods used in her home during the month, especially emphasising Alberta products.

Annual reports from the secretary and treasurer were read, also report of the W. I. trust fund was given. Several cards of thanks were read. During the meeting it was voted to send \$5.00 to the "Sunshine," \$5.00 to the "Nursing Mission," \$5.00 to the returned soldiers board and \$5.00 to our local

Sunday school. Two bags of clothing were also packed and sent to the Sunshine by the W. I. during the week. A Xmas cheer committee was appointed at this meeting to send gifts to several different from our community, who are sick. Mr. Hunt gave a splendid paper taken from the Xmas hymn. His subject was "The Significance of Christmas in Our Life," and needless to say this was very much enjoyed by all. Delicious refreshments were served at the close of the meeting, Mrs. Smith being assisted by Mrs. Bastin. The Christmas gifts exchange, conducted by Mrs. Mifflin proved very exciting, some very useful and pretty little gifts being received.

Following is the list of officers elected at this meeting for the coming year:

President, Mrs. J. Beaulieu.
First Vice-pres., Mrs. Mifflin.
Second Vice-pres., Mrs. D. Watkins.
Secretary, Mrs. Alexander.
Treas., Mrs. Hummel.
Directors, Mrs. Bastin, Mrs. Alcock and Mrs. W. C. Alcock.
Community Hall trustee, Mrs. F. C. Alcock.
Constituency representative, Mrs. Wm. Ulrich.

Mr. and Mrs. Harry Smith and H. E. Smith left for Calgary this week, where they will spend the winter.

Coming—Baldy Strang

Champion citizens are to have an unusual treat in the way of a feature Chautauque Entertainment given in the Champion Theatre, Jan. 1st, by the Sunset Artists Entertainers. From press reports in hand they have been received most highly. The program consists of Vocal-Instrumental numbers, character make-up features (entertaining and humorous), Operatic gems, Ballads, Cornet and Concert Horn Solo, Scottish Ballads, Harry Leander review and Bagpipe playing, Scottish competition Dancing Sword and Fling by Miss McGashey finishing with a special arrangement of The Holy City, an hour and forty-five minutes that will live long in your memory.

Mr. Strang is no new comer in our province having been through here in 1908 and 1918 with the Cosgrove Amusement Enterprise of Winnipeg and Ellison and White of the States. Their stage setting which they carry is real, covered with pictures from the hundreds of places they have been in our larger cities.

Mr. Strang is considered the most versatile entertainer on the Chautauque and Lyceum platform today. If you would enjoy a splendid program don't miss this chance to hear the Sunset Artists Entertainers, Jan. 1st.

INTERESTING FACTS ABOUT CHRISTMAS

The Word "Christmas"
The word Christmas comes from "Christ" and the Saxon word "Mass", the latter signifying the mass and a feast.

Santa's First Visit to America

The first Christmas visit of Santa Claus in America is believed to have occurred at New Amsterdam. At any rate, it is certain that Santa Claus was introduced by the early Dutch settlers of New York.

Various Dates for Christmas

December 25 is the commonly accepted date of Christ's birth now, but others which were accepted by small minorities and afterwards discarded were: January 6, April 20, May 20, March 20 and September 20. Authorities have never agreed as to the year. It is computed that December 25, B. C. 7; Potapov and Usher, December 25, B. C. 5; Bengel, December 25, B. C. 4; Anger and Winer, March 6, B. C. 1.

Mistletoe and the Crucifixion

It is sometimes asked if the mistletoe has any connection with the birth of Christ. It has no connection. An old Celtic legend relates that the mistletoe was once a tree, but, having furnished wood for the Saviour's cross, it was thenceforth condemned to exist as a parasite.

It is interesting to note in this connection that mistletoe was once forbidden in England as a church decoration. As one authority puts it: "Mistletoe was abandoned in the Christmas decking of churches, together with kissing at the service, because both were found to set the young ladies and young gentlemen a-reading of the marriage service."

Turkey Here Beef in England

Beef is the Christmas meat of the English. It is the outgrowth of an ancient Druid ceremony. When the Druids gathered the mistletoe from the sacred oak each winter two white bulls were sacrificed. The beef, which is the British Christmas meat was originally eaten as a reminder of this sacrifice, but of course this significance died out hundreds of years ago.

D. ALLRED.

For quality and quantity the Family Herald and Weekly Star, Montreal, is the product farmer's first choice. At \$1 a year or three years for \$2 it is a marvel of value, and all members of the family get a wealth of reading of marvellous interest.

E. Latiff has received word that his brother is seriously ill in the hospital at Vancouver.

J. Collins is so busy he can't get time to curl.

THIS Should Interest YOU

Vitomen Cereal Ltd. Vancouver, B.C.

Mr. R. A. Gillies, South Alberta sales manager for this industry, was in Champion this week in the interests of the Company, but owing to appointments in other parts of the territory could not remain as long as desired. This is the first company in the Dominion to establish an industry manufacturing Prepared Breakfast foods, and has met with wonderful success ever since the first car of these twenty three products arrived in Calgary on June 12th this year. Mr. Gillies can satisfy any investor as to the soundness of the company and the unlimited possibilities of success. The stock is now selling at one dollar and fifty cents per share (all common stock). There will be another advance of fifty cents by January 1st. A limited number of shares now available for this territory. If interested in a real investment not a speculation, fill out the coupon below and mail to R. A. Gillies, High River, on or before December 20th. He will notify you the date he will be at the Savoy Hotel, Champion, between December 20th and 31st.

I wish to know more about Vitomen Cereal Ltd.

POOL SHOULD HAVE RIGHT TO DOWN GRADING

Malton, Sask.—A declaration that the Dominion government should stand out of the way, clear the tracks and give the right to its own grain grading, thereby establishing grades for pool wheat and grades for local pool wheat has been made by locals of the United Farmers of Canada, Saskatchewan section.

This second "eagle of Ottawa" has come by way of a resolution to the members of the Saskatchewan grain inquiry commission presented at their session here, and was the result of a meeting of certain locals of the organization in the Carleton Place Valley District.

Announcement was made that Dr. F. B. Birchard, chemist in charge of the grain research laboratory of the Board of Grain Commissioners of Canada, would be a witness before the commission at the Carleton Place Valley District. It is expected that he will be called when the commission opens its session in Winnipeg in the month of February.

While complaints poured into the commissioners from farmers on the question of grading and while there was a unanimity of opinion to the existing practices of private elevators, various and short-lived proposals were put forward during the present session from any point in the district.

But if the commissioners had been inclined to be critical in the last few days of lack of constructive suggestions and criticisms from farmers as to how the grading and sampling difficulties were to be overcome, such criticism could have been made here. Hardly a witness called his evidence without leaving some thought in the minds and on the note books of the commissioners.

Mooch Found Guilty

Yorkton Man Adjudged Guilty of Murder by Spoliation Jury

Spokane, Wash.—Guilty of murder in the first degree with punishment of death was the verdict of the Mooch jury after deliberating two hours and a half.

Mooch, who had sat with no face as the jury filed in, began to cry when the jury announced they had reached a verdict and when it was read he gave way completely and had to be assisted from the court room by Attorney Patrick.

Mooch was taken immediately to jail in the jail where, asked if he had any statement to make first asked, "Why?" and when told it would be to his people in Spokane, Saskatchewan, replied, "Not now."

The verdict was a stunning surprise to close followers of the case, who had not expected anything worse than life imprisonment.

J. A. M. Patrick, K.C., of Yorkton, attorney general, was making the verdict, but said the defence has just begun to fight and that an argument for a new trial would be made at once. He firmly believed it would be successful or that a reversal of the verdict would be secured in the supreme court of the state.

Lindbergh Wins Trophy

For Most Outstanding Aeronautical Feat During 1927

Washington, D.C.—Charles A. Lindbergh was awarded the Harmon trophy for the most outstanding aeronautical feat of 1927 at the International Civil Aeronautics Conference.

Pierre Plaudin, vice-president of the French Chamber of Deputies and Chief of the French delegation to the conference, made the presentation. The trophy was the gift of Flitter Harman, an American residing in Paris, and founder of the International League of Aviators. Shirley Short, air mail flier, won the trophy in 1926.

Confer On Resources

Ottawa.—With the idea of conferring with the Dominion government the methods whereby the undeveloped natural resources can be transferred, Premier J. B. Brownlee, of Alberta, and Dr. B. F. Tolson, secretary of the Canadian Department of British Columbia are visiting this city.

To Sell Home Bank Land

Toronto, Ont.—"Cedarvale," a land tract valued at \$1,000,000, which forms part of the assets of the defunct Home Bank, is to be sold.

W. N. 17 1924

Time Limit For Pension Appeals

Chief Attorney of Department At Ottawa Explains Matter

Ottawa, Ont.—The time limit in which all appeals to the federal appeal board in pension cases must be entered does not expire at the end of the month, according to a statement made last night by K. G. MacDonald, chief soldier's adviser of the department of pensions and national health.

There has been some apprehension concerning the statutory time limit governing appeals. He pointed out that the pension act, as amended at the last session of parliament, sets the time limit for entering an appeal from a decision of the board of pension commissioners as on or before Dec. 31, 1928, or within two years from the date of the decision complained of.

This means that an appeal can be entered at any time within two years of the decision, unless such decision was given on or before Dec. 31, 1928, in which case the final time limit is Dec. 31, 1929.

Time Has Been Extended

Alberta Will Ship Coal To Ontario

Ottawa.—Subject to the exigencies of the grain movement, the experimental shipments of Alberta coal to Ontario under the coal per ton rate will be extended in 1929 for a period of six months.

No provision has yet been made for granting a six month test period to Alberta for 1930.

The railway companies have not yet taken up the issue of Rail way Commissioners a statement of the costs involved in the experiment for 1928. A hearing was held a month ago when the railway companies declared that their costs could not be met before the end of the current fiscal year, March 31, 1929. Not until some time after that date will it be known if the government who consigned to reimburse the companies for any financial loss sustained in the tests, will have to distribute any federal funds.

Alberta Will Aid Immigrants

Promises Month's Free Training and Selected Positions For Applicants

Ottawa, Ont.—An important agreement promising to stimulate the flow of migrants to Canada from Britain has been concluded between the province of Alberta and the overseas settlement department of the British government.

Under the agreement the province will give month's free training in agricultural schools in Alberta, to men 17 and 25 years and a month's free domestic training with the opening of the season, and 33 years of age. Subsequently the province will place the students on selected farms and in selected domestic positions respectively. The applicants will travel in two parties in the spring.

Queen Mary Unveils Memorial Tablet

Made Brief Address Which Was Broadcast By Radio

London, Eng.—Queen Mary presided at the unveiling of a memorial tablet on Tower Hill. It is to the memory of the men of the Mercantile Marine who lost their lives during the war. The Queen left Buckingham Palace at 2:30 o'clock and was cheered along the entire route by enthusiastic crowds.

Her Majesty's broadcast address was broadcast throughout the nation by radio. The Queen made a brief address in behalf of the King, this being the first time her voice was ever heard upon the radio.

Minister Of Fisheries

Montreal.—To seek the creation of a dominion minister of fisheries, and to present certain suggestions concerning Canada's fishing industry, a delegation of members of the Canadian Fisheries Association will meet Rt. Hon. Mackenzie King, the prime minister, and his cabinet at Ottawa, early in January, according to tentative arrangements agreed upon by Hon. J. J. Curran, minister of marine and fisheries, and R. W. Gould, secretary of the association.

Sleeping Sickness In Africa

Lugano.—A report was submitted to the council of the League of Nations saying that sleeping sickness is a veritable scourge among the natives of Africa and is rapidly decimating them. The report was adopted by the council which approved the campaign league to combat the maul.

Close Of Navigation

Navigation On Great Lakes Ended On Night Of Dec. 12th.

Winnipeg.—Navigation on the Great Lakes is closed, following a season in which all former grain movement records were broken out of Port William and Port Arthur. A total of 278,780,000 bushels of all grains was shipped out of the lakehead last night by K. G. MacDonald, chief soldier's adviser of the department of pensions and national health.

While the official close of the shipping season was really November 20 fine weather and the continued flow of grain boats plying back and forth until Dec. 12, which marked the last day on which insurance was obtainable.

Cargoes aggregating 2,780,000 bushels left the head of the lakes on the last grain freighters to attempt the downward trip. Grain movement on the prairies still continues heavy.

Given Life Sentence

Mother Of Ten Children Given Maximum Penalty For Selling Liquor

Lansing, Mich.—Mrs. Etta Mae Miller, mother of 10 children, must spend the rest of her life in prison as the first woman to be given the maximum penalty in Michigan, mandatory under the habitual clause of the State criminal code.

She was convicted by a jury here of selling liquor, her fourth offence. The jury deliberated 1 hour and 50 minutes.

MUST WAIT FOR THE EVACUATION OF RHINELAND

Lugano, Switzerland.—Dr. Gustav Stresemann, German foreign minister, belittled current reports that Germany is expecting the early and complete evacuation of the Rhineland.

He emphasized that Germany is counting upon complete evacuation of German soil when the reparations problem has been adjusted, but remarked upon the great uncertainty as to when and whether the reparations question would be satisfactorily liquidated.

It was learned that the conversations of the ministers already have touched upon the proposed creation of a committee of verification and consultation in the Rhine area, that region is liberated of troops.

An unconfirmed report also was current that the allied powers contemplated making a gesture of amity and ordering evacuation of the second Rhineland zone simultaneously with the opening of the reparations negotiations of the committee of experts.

Predicts Air Mail

Coast-To-Coast

Great Progress Achieved In Aerial Transport Says Postmaster-General

Ottawa.—A coast-to-coast air mail service within a few years was envisaged by Hon. P. J. Veniot, postmaster-general, in discussing the progress already achieved in the field of aerial transport.

Contingent upon the willingness of parliament to vote the necessary funds, he indicated that there was a possibility of inaugurating an experimental air mail service next summer between Rimouski, Que., and Vancouver, B.C.

MAY VISIT AMERICA

Queen Victoria of Spain, whose most recent photograph is reproduced above, is expected to be the next royal personage to arrive from Europe for a visit in America.

Queen Victoria of Spain, whose most recent photograph is reproduced above, is expected to be the next royal personage to arrive from Europe for a visit in America.

Fought Police Five Hours

Sixteen-Year-Old Chicago Negro Was Charging Arrest

Chicago, Ill.—Two blocks from Oak and Milton streets, famous "death corner" of little Italy's gang and mafia slayings, a 16-year-old negro resisted for five hours the machine guns and bayonets of 100 police who besieged his brick barricade.

Ernest Whitst, the negro youth, was being sought for questioning in the breaking of a door window near his home. He evaded two detectives who called at his home at 2:30 a.m. opened fire on them from behind and began a battle which ended for every available rifle quail on the north side.

After five hours firing deputy police commissioner John Stege who had taken charge of the police force, and Sergeant Thomas' barricaded entrance to the youth's barricaded room and rendered Whitst unconscious with two shots through the head.

Daring Hold Up

Bank Delivery Car In Yorkton, New York, Robbed Of Huge Sum

Yorkton, N.Y.—Holding up a bank delivery car in the heart of the city's business district six robbers, carrying with them \$104,500 in currency, representing part of two payroll disbursements.

A First National Bank messenger guarding the money inside the delivery car was shot through both arms as two of the holdups, armed with a machine gun, drilled through the metal-enclosed rear door, matched the money while their comrades kept at bay the vehicle's driver and a patrolman riding on the front seat.

It all happened in about three minutes. The truck, transported the money to the bank from the post office where it had been received from the Federal Reserve Bank in New York, was near the intersection of Buena Vista Avenue and Hudson street on the latter thoroughfare.

Property Changes Hands

Winnipeg.—Built in 1914, the board building, nine storey Postage Avenue block, has been sold to a syndicate of Winnipeg business men for a price reported as approximately \$1,000,000.

Western Styles Banned

Canton, China.—Imported westernized clothing, which has been the catalyst for the revolution in China, is to be abolished by the Canton government.

Riches In Northland

Coal and Oil Discoveries Reported In Vicinity Of Hudson Bay Junction

Hudson Bay Junction, Sask.—Mining talk is commanding a lot of attention in the Junction these nights and it's all about The Pas country either. Coal is reported to have been found about 10 miles south of the village, and some weeks ago there was a flurry when a Toronto company made a survey of the oil shales in the Porcupine Hills. The oil field is declared to be better than which Horace Hallowell and other prospectors from The Pas made in the Pasquins Hills, about five years ago. The field is reached by a fair trail, about 16 miles of it being open to auto traffic and the rest is a wagon road. The oil shales are in the heart of the bush country. Nothing is known locally about the kind of coal or the quantity available.

Would Sell Labrador

Newfoundlander Suggests Price Of One Hundred Million

St. John's, Nfld.—In the opinion of Sir William Crocker, head of the Fishermen's Protective Union and colleague of Premier Sir Richard Squires, Newfoundland would be well advised to sell Labrador to Canada, or to a syndicate, if \$100,000,000 could be obtained for the territory according to an article over Sir William's name in the Fishermen's Advocate of last week.

The main object of such a sale, he writes, would be payment of the colony's national debt.

Appointed Trade Commissioner

Montreal.—A. M. Wiseman, M.C. deputy British trade commissioner at London, has been appointed trade commissioner in Canada. He will succeed G. P. Braddock, who has returned to the department of overseas trade. London, Eng. Mr. Wiseman, who is at present on leave in England, will take up his new appointment in February.

Wants Site For Town

Winnipeg.—Provincial government is asked for reliable information concerning site for the town to be created as a result of the Flin Flon Min developments. Letters to that effect were made through Hon. D. G. McKenna, provincial secretary and minister of mines from The Pas Board of Trade.

Naval Appointment

Ottawa.—Official announcement was made by Hon. J. L. Ralston, minister of national defence, of the appointment of Lord Commander of R. P. Barnes, R.C.N., for duty in R.C.N. barracks, Esquimaut, B.C.

RAIL CROSSING PROBLEMS WILL BE INVESTIGATED

Ottawa.—Hon. Frank Oliver has been appointed advisory officer to the principal railway commissioners on the subject of railway crossing problems. Announcement to this effect was made recently.

The appointment of Mr. Oliver was made on the recommendation of the board of railway commissioners under Section 21, of the railway act, which is an advisory capacity, particularly in cases of level crossings.

In his new office Mr. Oliver will be entrusted with an investigation throughout Canada of the problem of railway crossings. Subsequently he will submit a report to the railway commissioners recommending means of eliminating or protecting railway crossings, a problem which has held the attention of the commission some time.

Mr. Oliver served on the board of railway commissioners from 1925 until his resignation this summer. He was first elected to the House of Commons as member for Edmonton in 1926, and was minister of crown lands in the government of Sir Wilfrid Laurier from 1905 to 1911.

New Dodge Of Run Runners

Use Power Line Across Niagara To Transport Liquor To U.S.

Niagara Falls, Ont.—Using a specially constructed set of pulleys and run runners have been using a 120,000 volt power line across the Niagara River to transport liquor into the United States, a provincial constable has discovered.

The constable came upon a sedan car in the power house at Queenston. The car was jammed with assorted liquor and the apparatus for making use of the power line was found nearby.

C. N. R. BRANCH LINES PROJECTED FOR THE WEST

Toronto.—A special dispatch from Ottawa to the Toronto Star says the newspaper's Ottawa correspondent has learned a three-year branch program aggregating more than \$20,000,000 will be brought down to Parliament next session.

"In addition, the Hudson Bay Railway will be carried to Port Churchill, reaching there next summer and the Canadian National Railways will participate on a 50-50 basis with the Canadian Pacific in the purchase of the Alberta government railways, which include the Edmonton, Dunvegan and British Columbia Railway, the Alberta and Great Waters Railway and the Central Canada Railway.

"The new C.N.R. program will be the third since the system became consolidated. In 1924, a three-year program was approved by parliament for the construction of 510.2 miles of branch line railway at a cost of \$15,615,515. In 1927, another three-year program was passed, providing for the construction of 510.4 miles at an estimated cost of \$20,000,000. Of this sum \$3,191,600 was allocated for the construction of a further \$10,723,000 will be spent and the balance expended in 1929.

"The passage by parliament of the new program has increased the number in the year they were passed so a new departure will be made next year, and it is expected to improve the new program before the old has been completed. Thus, work can be started as soon as the work on the 1927-29 program has been initiated.

The money is paid over to the Canadian National, which prepares the program and the approval of the minister of railways and the sanction of parliament. The financial experts and engineers of the Canadian National have almost completed the new program to be presented to the minister.

"Proportions include the cost of stations and other railway buildings on the branch lines to be constructed. The extensions and improvements of the main part will be the development of roads in western Canada and better facilities for bringing up the roads in the west where crop. The trend of construction will be northward and there will be some lines to tap the mineral areas along the roads in those areas.

"The Hudson Bay Railway is not a Canadian National branch line but a national project, built for the civil vote. The actual construction work is being done by Canadian National engineers and construction staff, but under the direction of engineers of the department of railways and canals.

"The railway work is expected to be completed next year. Considerable progress has been made on the harbor works."

Grippe Epidemic In Montreal

Montreal.—There is a real epidemic of the grippe in Montreal. The same dread malady which ravaged Montreal ten years ago, at the Montreal general hospital 25 nurses have been stricken, while two nurses two doctors, and eight males have been affected from the Royal Victoria staff. The Hospital Notre Dame reports 15 of its staff ill.

Bird Dredges Report

New York.—Commander Richard E. Byrd, in a wireless dispatch to the Associated Press from his ship, the Hawk City of New York, said that the Antarctic, denied a report that he had sent Bill Kelly, a dog driver back to the Yukon to get forty huskies to replace dogs that had died aboard ship.

Brandon "On the Air"

Brandon.—Brandon went out "on the air" through the opening recently at the city's new radio station, CKX. While the city defrayed the cost of constructing the station, \$2,000, it will be operated and maintained by the Manitoba government.

Shorter Route To Bay

Montreal.—A shortening of the route from Shukla to Hudson Bay ports will result from the construction of a new line of railway from Aberdeen to Montreal, and according to an announcement made by the Canadian National Railways.

Canada An Inspiration

Ottawa, Ont.—By leading the way in world disarmament, Canada has become an inspiration to other nations in furthering the sentiment of peace, declared Hon. J. L. Ralston, minister of national defence, in addressing the University Club here.

VITAMINS

Everyone needs them to support growth or to protect the body against germ-infection.

Scott's Emulsion

abundantly rich in vitamins is of great importance in all run-down conditions of the body. Scott's Emulsion builds strength.

CHAPTER IX.—Continued

"Thank you," answered Donald, "but if you don't mind, I'd rather look at your flower garden."

It was quite evident that he was pleased by this statement. "You are interested in flowers?" he questioned eagerly.

"I am," admitted Donald, "but unfortunately I don't know much about them."

The dignified Englishman proved to be not only an intelligent, but a most willing teacher. From plot to plot they went, the host eager to talk on his hobby to an attentive audience. He gave the names of the plants, their needs, their uses, their growth, nature and uses. For half-an-hour his quiet voice went on until the lengthening shadows deepened.

As they moved toward the cabin, the lord passed them carrying a pail brimming with milk, at which Andy gazed with longing eyes.

"We always have a light lunch in the evening; won't you try?" begged his host.

Andy nodded his blond head gratefully in a silent signal to Donald for acceptance, and acceptance was instantly forthcoming.

The interior of the log cabin was rough in the extreme, but scrupulously clean, with chairs, tables and beds that had never issued from a furniture factory. The window-curtains were made of four and sugar sacks, on which the names of the manufacturers could still be deciphered. On the wall were two hands, set one above the other, on which were spread heavy Hudson Bay blankets.

Blankets were in evidence, and the pillows were rough sacks stuffed with moss. The lower bunk showed the feminine touch in its drapery of cheap blue print, a patch of red to brighten the coarse surroundings.

Behind a small stove in the corner hung an array of cooking utensils, spotlessly clean, but of inferior quality. The one and only table, placed conveniently near the stove, was as white as a ship's deck from constant scouring.

In direct antithesis to this seeming poverty, one end of the cabin was literally filled with the most valuable, valued volumes looked incongruous in conjunction with the rough tables, the uncomfortable chairs and the rude beds. Donald's eyes roved over the books, arranged on the shelves standing and crooked. Most of them were in English, but many were in German, French and Italian; some in what appeared to be Arabic, perhaps Sanskrit; and dozens were on botany, ornithology and natural history.

"A bookworm," mused Donald, "a bookworm, and at the expense of his personal comfort. He felt ashamed of his unwarranted criticism of their kind host."

"I built this cabin all alone," he affirmed Wainwright proudly, "and I have never had assistance of any kind. Donald's eyes rested on the speaker.

"I built this cabin all alone," he affirmed Wainwright proudly, "and I have never had assistance of any kind. Donald's eyes rested on the speaker.

er, Wainwright wore a shooting-jacket and riding breeches of excellent cut and of rare material, but some worn threads and neatly patched. Donald knew that these rents had been mended by a woman's hand. Wainwright's aesthetic face was impressive. The marks of toll could not hide the delicacy of his thin hands with their long, tapering fingers. The hands of a desk-worker, thought Donald, not the hands to wield an axe. A quick admiration for this man's gallantry filled his heart. "A good job," he said, "I have surveyed the sagging roof and bulging walls."

"As good an authority as Hillier told me that it was excellent work," stated their host rather boastfully.

"Hillier old Johns' heart?" thought Donald fervently.

It was plain that Connie had anticipated their staying for lunch, as the table was set—with six plates and cups—for four. She drew a pan of hot roots from the tin oven, and her face a deep red from the heat and her cheeks, and sat down to the table, using a canned goods box as a seat.

Donald noticed that the two chairs had been given up to the guests, and the three at the table were for the host and his wife. "You are interested in flowers?" he questioned eagerly.

"I am," admitted Donald, "but unfortunately I don't know much about them."

The dignified Englishman proved to be not only an intelligent, but a most willing teacher. From plot to plot they went, the host eager to talk on his hobby to an attentive audience. He gave the names of the plants, their needs, their uses, their growth, nature and uses. For half-an-hour his quiet voice went on until the lengthening shadows deepened.

As they moved toward the cabin, the lord passed them carrying a pail brimming with milk, at which Andy gazed with longing eyes.

of one of the mountain showers so common in the coast range of the Province. A moment later there came a sharp, rattling sound, and raindrops on the roof, gradually increasing until it became a strumming roar, a deluged conversation.

Connie lit a candle, and using the neck of an empty vinegar bottle as a candlestick, she placed it on the table, thus to exclude the radius of the dim light.

The door opened to admit the Bred. As he entered a rush of rain-scented air, laden with the odor of fragrant firs, filled the room. Shaking a shower of silencing raindrops from his wide shoulders, the lord hobbled silently on moccasined feet to a seat in the corner.

The melting rain dwindled to a drizzle, then stopped as abruptly as it had begun.

For an hour Wainwright gave a disquisition on the value of light to mankind. Selecting two books from the shelves, he placed them on the table before him. "You will find no difficulty in understanding these volumes, as they are written for the novice. You will also find that there is no pursuit more conducive to health and happiness than the study of plants. It keeps one largely in the open air, and promotes pure and helpful thoughts. For this reason patients should lead the minds if their children to the study of plant life."

During her father's discourse Connie's eyes scarcely left his face. The Bred from the darkness of the corner noticed her rapid interest in the tall stranger, and his eyes grew flushed with jealousy. He limped to the doorway, and as he turned, Donald could not resist a start as he caught the realization of his fate, which shot from the half-breed's glowing eyes.

"Connie, dear, will you play for us?" asked her father.

She moved obediently to her bunk, and from the floor beneath she drew out a small, worn, violin case.

The mellow radiance from the candle and the ever-changing lights from the open drift of the small, white clouds, filled the room with a soft, dreamy glow.

From the wall came the sound of the violin, and the melody of a bird singing through the trees, now joyful, now sobbing in a deep, low, moaning cry.

As the last note died away, and faded on the throbbing air, Connie's embarrassment returned. At Donald's glance she felt a quick, sharp stab, and she checked. She returned the instrument to its case, and with eyes downcast, resumed her seat in the darkness of the corner.

Wainwright's eyes, which had a look of deep tenderness as he thanked her in a voice that was like a caress.

As they said good night Donald noted that his host's face was again shrouded in deep melancholy. The light of the small, white clouds, filled the room with a soft, dreamy glow.

Druggist Gave Her

Very Good Advice

Miss Ruth Henshaw, of N. Y., writes: "Having been troubled with a severe headache for some months, my druggist gave me a very valuable laxative pill."

"I am so glad that I am taking them, and only one each night, I feel much better and am not getting anything worse, fear of an attack."

Teeth and Health

Issued by The Canadian Dental Council and Published by The Haskin-Hyman Dental

TOOTH-CLEANING FOODS

The most highly civilized people of today and, in particular, those living upon the North American continent, pay more attention to dentures, and pay more attention to the health of their teeth, than any other people of this or any previous age. But yet among them, tooth decay is universal and rampant.

In contrast, it appears that primitive man suffered little if at all from decayed teeth.

Investigators after having examined several hundred skulls of Indians, from the South American continent, who lived between two and three hundred years ago, report that only a single tooth in the entire collection showed dental caries.

In proof, that this is not merely a fact, they have found that where savage people and others have modified their diet in a manner similar to the European or American, there has resulted a rapid deterioration of the teeth with tooth decay becoming very prevalent.

Now, undoubtedly much of this deterioration of tooth structure has been due to the use of certain foods, which are the essential "building stones" of tooth tissue. But, on the other hand, the adoption of softer foods with their modern methods of preparation, and the consequent effort is required on the part of the individual to keep the teeth in good condition.

Now, undoubtedly much of this deterioration of tooth structure has been due to the use of certain foods, which are the essential "building stones" of tooth tissue. CHAMPION CHATTER

VOL. 1

Thursday, Dec. 29, 1928.

No. 48

Published in the interests of the People of Champion and Farmers of this vicinity.
GEO. L. DUPUE, Editor.

EDITORIAL

It is just the old wish that we are wishing for you again this year, but we are all of us in this organization, wishing it for you with our whole hearts. To each and every one of you, a Merry Christmas, the merriest one that you have had in many a year.

Christmas Frow-m
Where in the world Will I find the dove To pay the mountain Of debt I owe?

Give your farm implements a Christmas present too. Look them over now during the slack season and replace all broken and worn parts with new ones of the genuine I. H. C. brand.

We have wanted for a

long time to hear of a man who mortgaged his automobile to buy a house.

We still have a few of the toy tractors, trucks and threshers to make the heart of some boy happy for a long time.

'S No Vas
"Why should I build the blocks up high?" Said Brother, with a frown,
"Cause" every time I build them up The baby knocks them down."

We unloaded a car of Mc-Dug tractors on Tuesday.

Most men do their Christmas shopping the way they make a will—at the last minute. Work on the Community Hall is again under way, the lumber arriving on Wednesday.

Make happiness for the little children at this Christmas time and

your own happiness will find itself.

We have been successful in obtaining two more Marconi Battery Consoles after a months effort on our part. The ideal Christmas present for the whole family. There is none better you know than the Marconi.

Not Gifts
The only thing more foolish than giving a flapper's kitchen apron for Christmas is giving a busy husband a lounge robe.

We want to wish the whole dear world a Merry Christmas.
